If necessary, a rapid wean will take 10 days and require 8 (eight) of either the 8mg Suboxone or Subutex pills or films. It is important that you start saving 8 pills or films as quickly as possible. This is why you are being written a weekly prescription for 15 pills or films instead of 14 so you can save at least one each week.

If you don't already have 8 pills or films saved, **PLEASE SAVE AT LEAST 1 (ONE) PILL OR FILM EACH WEEK TO PUT TOWARD YOUR SUPPLY OF 8 WEAN PILLS OR FILMS.**
