Note 1: Both of these programs offer excellent counseling and support opportunities for individuals dealing with addiction issues. However, you may wish to be discreet about your use of medication as these organizations generally support abstinence instead of the use of medication for the treatment of dependency. IT IS NOT MANDATORY FOR YOU TO DISCLOSE YOUR USE OF MEDICATION FOR DEPENDENCY TREATMENT IN ORDER TO PARTICIPATE IN THESE GROUPS.

Note 2: Some of the above contact numbers require you to leave your name and phone number, in order for someone to call you back. Some of the websites have up to date meeting times and locations listed.
